	Basrke		

REMARKS

Our NGO giving the training in four blocks patti, gandiwind ,valtoha, bhikiwind, .we noticed in these four blocks there are lots of demand for the job cards . peoples are much interested to do the works under NREGA plan .because there is no permanent work for the labourers . every age group of people including womens are interested to do the work. 50% job cards are issued in every block but not given to the peoples they are demanding there job cards which are still with the blocks . rest of 50% are on demand. . Peoples want the security of the job .we trying hard to convince them . every village demands lots of works for the village .the status of the record with the BDO are very poor . even they don't know the exact population of the village. Social and vigilance committees are not exists in the villages .there are lots of things which we are given at the end of the training .

Thanks

Rupinder kaur sandhu
