

***CAPTAIN GURDEEP SINGH MEMORIAL EDUCATIONAL HEALTH &
SOCIAL WELFARE SOCIETY (REGD)***

**IMPACT AND PROGRESS REPORT AWARENESS
GENERATION PROGRAMME**

Captain Gurdeep Singh Memorial Educational, Health & Social Welfare Society (Regd) organized awareness generation programme in the district Tarantaran as per the guidelines of the Social Welfare Board. We covered five villages BAATH, BHULLAR, MANNAN, PANDORI, SANGHE, with the full cooperation of the district administration. They are tried hard to motivate the women's and young girls which are not highly educated to learn some type of work for earning and to live better life. Sh. Khushi Ram Deputy Commissioner, Sh. Walia Sahib D.D.P.O., District Education Officer Sukhjinder Singh, S.D.M. Jagmeet Singh are visited the camps and encouraged the members. Our organization firstly makes the survey of the village and found approximately 300 to 400 women and girls from each village who are really interested to take the benefits of these camps. We fill up the forms of each woman with their status, took their photographs and maintained full record with us. We also invite the expertise persons who are best in their field like Education, Health, Industries etc. and gives the training to the participants for making Candles, Bags, Tie-die Dupattas, Surf making etc. The entire women and girls feel happy to learn but all of them are not satisfied with these small period camps. All the participants requested us that after taking training we are not able to do the work because we can not sold that goods in the market they requested why the government not helps us. Actually the result is nil. Everybody get the training. But they are unable to sell their things in the market. We opened a sewing centres in the villages with a little effort for those women and appoint expert of tailoring, Embroidery with the self expenses and so all the women's get the training from our Centre and we will tried to help them to marketing their products. No doubts the project is too good but there is need of some remedies like to run projects for the long period and help them to set up their small scale industries. We get a great achievement and want to help the necessary girls with the help of the community as well as administration to run their project and we want continue these type of projects in the future with your kindness.

Thanking you
RUPINDER KAUR SANDHU
